CONFIDENTIAL — DOCUMENTATION MATERIAL. This report contains records of alleged online abuse. Flags below are an automated first-pass indication produced by a local AI model: every item must be reviewed and confirmed by a human analyst before it is usable as evidence in publications or complaints.

# 1. Executive summary

| 15 | 11 | 73.3% |
|---|---|---|
| ITEMS ANALYSED | FLAGGED BY MODEL | FLAG SHARE |
| **7** | **1** | **0** |
| HIGH / CRITICAL | AUTHORS INVOLVED | ANALYSIS ERRORS |

The model reviewed 15 post(s) and 0 comment(s) from the source page and flagged 11 of them (73.3%) as gender-based cyberviolence or hate speech against women, with a mean confidence of 0.95 / 1.00. The most severe flag is HIGH, all from a single author.

## Most prominent concerns

- Silencing / discrediting — 10 flagged item(s) (91% of flags) · Gendered attempts to silence women (e.g. 'go back to the kitchen')
- Sexist stereotyping — 5 flagged item(s) (45% of flags) · Demeaning gender stereotypes presented as fact
- Incitement to violence — 1 flagged item(s) (9% of flags) · Calls for others to harm, punish or 'discipline' women

# 2. Methodology, scope and limitations

## How the content was collected

- Public content was collected from the page <https://www.facebook.com/profile.php?id=61591177181171> on 2026-10-21 08:38 UTC using a dedicated research account; collection ran in a headless browser session and captured the visible post and comment texts.
- Each item carries a SHA-256 hash of its original text and a collection timestamp, so any excerpt in this report can be re-verified against the raw JSON/CSV export that accompanies it.
- Author names are pseudonymised (irreversible codes derived from the name) in all outputs.

## How the items were classified

- Every item was classified by the language model “google/gemma-4-e4b (local, LM Studio)”, running entirely on the analyst's machine (LM Studio). No text was transmitted to any cloud service.
- The model judged each item against the taxonomy in section 3: whether it targets a woman or women because of gender, on a scale none → low → medium → high → critical, with a per-item confidence score, a target group, a language guess and a short verbatim evidence excerpt.
- Flagged items are sorted by severity, then by confidence. Statistics and charts in section 4 cover flagged items only.

## Limitations — read before acting on any finding

- Model output is an automated first-pass flag, not a legal or factual determination. A human must review every flagged item before it is used in reports, publications, takedown requests or complaints.
- Dialects (esp. Arabic, Tunisian Darija and Arabizi), sarcasm, coded language and missing context can cause false positives and false negatives. Quotes are excerpts, not complete items.
- Sampling stops at the configured post limit and comment threads may be incomplete; the absence of flags is not proof of absence of GBV.

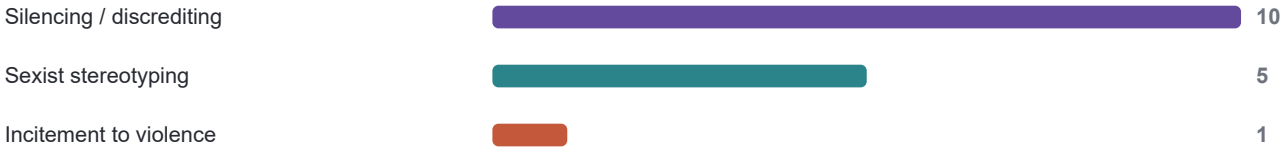

# 3. Classification taxonomy

Categories below were used during classification (editable in analyzer.py). Severities: none = not a violation; then low, medium, high; critical = explicit threats of rape or death, doxxing intended to enable harm, or sextortion.

| Category | Definition |
|---|---|
| Sexist hate speech | Generalised hatred/contempt toward women as a group because of gender |
| Misogynistic insults | Gendered slurs or insults aimed at a woman/women |
| Sexual harassment | Unsolicited sexual comments, propositions or sexualised content |
| Threats of violence | Threats of rape, physical harm or death against a woman/women |
| Incitement to violence | Calls for others to harm, punish or 'discipline' women |
| Body / slut-shaming | Attacks on appearance, sexuality, 'honour' or morality |
| Doxxing / privacy violation | Exposing address, phone, private photos or personal data |
| Stalking / intimidation | Persistent targeting, surveillance or intimidation |
| NCII / sextortion | Non-consensual intimate images, blackmail, sextortion |
| Victim-blaming | Blaming women for violence they suffered |
| Silencing / discrediting | Gendered attempts to silence women (e.g. 'go back to the kitchen') |
| Trivialising GBV | Mocking, denying or minimising violence against women |
| Sexist stereotyping | Demeaning gender stereotypes presented as fact |
| Other GBV | Other gender-based online violence not covered above |

# 4. Findings at a glance

## By category of abuse

## By severity

## By target group

## By language

## Flagged items by type

Distribution: 11 flagged item(s) from 1 author(s); 11 carry a confidence of 0.75 or higher. Prioritise the severe items (high / critical) for human review — they follow in section 5.

# 5. Flagged items — detailed records (11)

11 record(s), most severe first. The banner colour encodes severity (deep red = critical, orange = high, amber = medium, olive = low). Each record is designed to be copied or photographed into an incident file as-is: verify the evidence excerpt and the permalink against the original post, then mark the review line under the record.
